

## Adding Mixed Numbers | Like Denominators

Fill in the Missing Numbers.

$2\frac{1}{2} + \square = 4$	$\square + 1\frac{4}{5} = 7$
$5\frac{2}{7} + \square = 9$	$\square + 3\frac{3}{5} = 11$
$4\frac{4}{5} + \square = 10$	$\square + 7\frac{4}{11} = 12$
$6\frac{1}{4} + \square = 8$	$\square + 9\frac{4}{9} = 14$
$3\frac{5}{9} + \square = 5$	$\square + 2\frac{1}{7} = 6$
$8\frac{5}{8} + \square = 11$	$\square + 1\frac{7}{9} = 3$
$6\frac{2}{3} + \square = 9$	$\square + 8\frac{1}{6} = 12$
$4\frac{4}{7} + \square = 7$	$\square + 5\frac{4}{5} = 8$
$9\frac{4}{9} + \square = 15$	$\square + 7\frac{3}{4} = 11$
$6\frac{1}{2} + \square = 9$	$\square + 3\frac{2}{9} = 8$
