

## Simplifying Proper Fractions

Reduce each proper fraction to its lowest terms.

$\frac{20}{24} =$ <input type="text"/>	$\frac{20}{45} =$ <input type="text"/>
$\frac{21}{56} =$ <input type="text"/>	$\frac{18}{63} =$ <input type="text"/>
$\frac{18}{90} =$ <input type="text"/>	$\frac{42}{48} =$ <input type="text"/>
$\frac{8}{64} =$ <input type="text"/>	$\frac{16}{28} =$ <input type="text"/>
$\frac{30}{42} =$ <input type="text"/>	$\frac{24}{32} =$ <input type="text"/>
$\frac{36}{72} =$ <input type="text"/>	$\frac{9}{54} =$ <input type="text"/>
$\frac{15}{40} =$ <input type="text"/>	$\frac{40}{90} =$ <input type="text"/>
$\frac{24}{28} =$ <input type="text"/>	$\frac{6}{36} =$ <input type="text"/>
