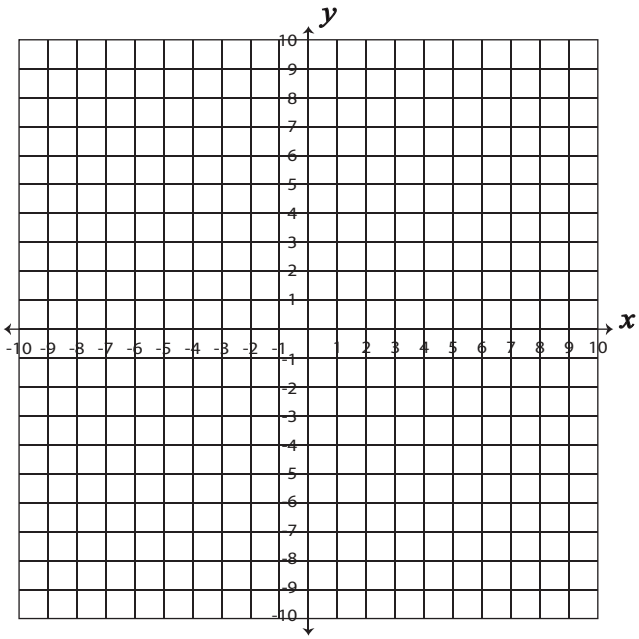
WS #1

# x-intercept and y-intercept

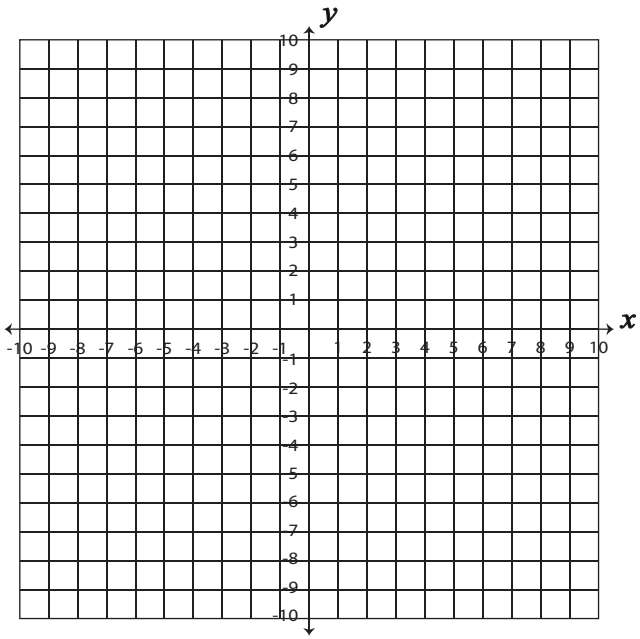
Graph each equation. Find the x-intercept and y-intercept.

$x + y = 2$



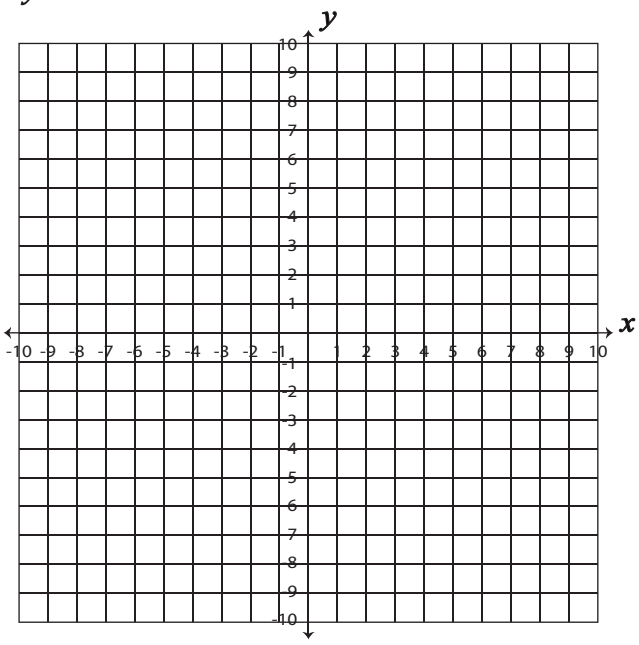
x- and y- intercepts:

$5x - 3y = 15$



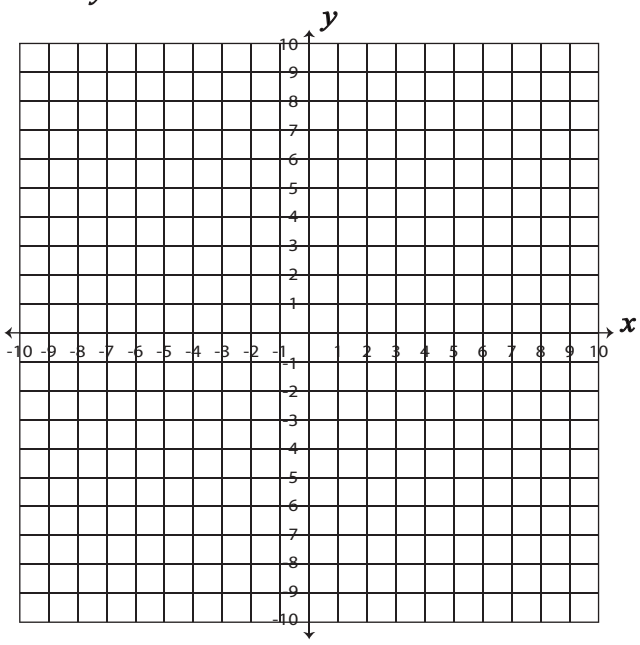
x- and y- intercepts:

$4y = 3x + 12$



x- and y- intercepts:

$2x + y = -8$



x- and y- intercepts:
