

x-intercept and y-intercept

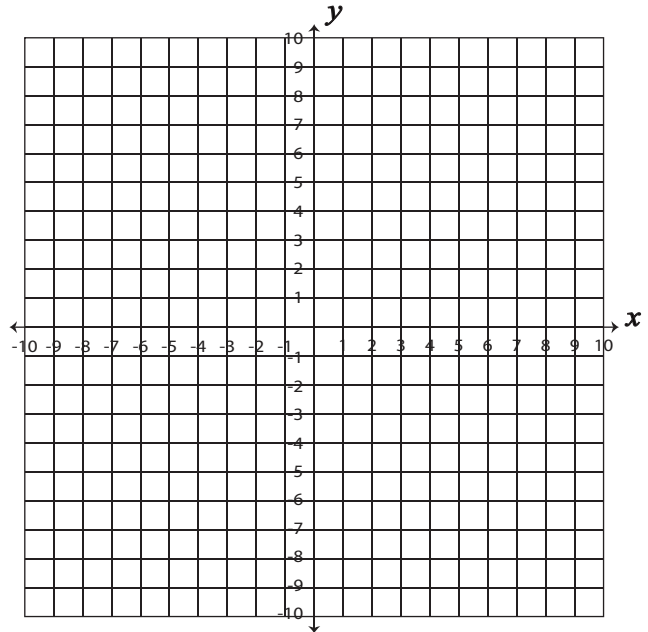

Graph each equation. Find the x-intercept and y-intercept.

$$y + 1 = \frac{1}{3}x$$

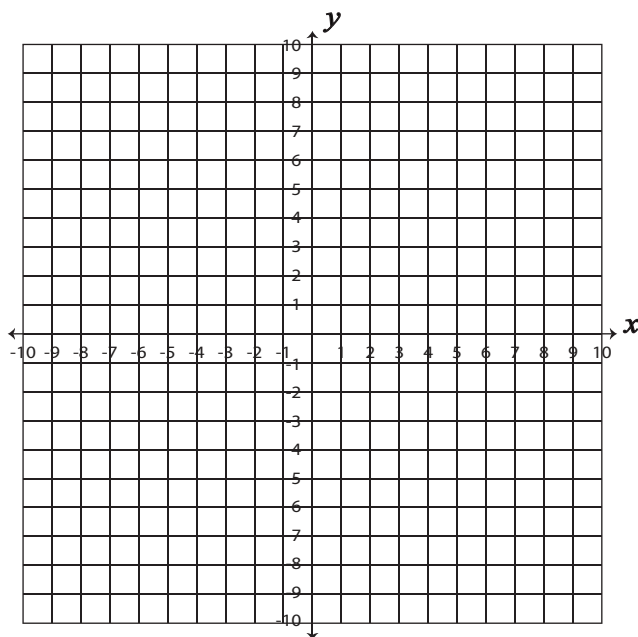

x- and y- intercepts:

$$\frac{x}{2} + y = 3$$

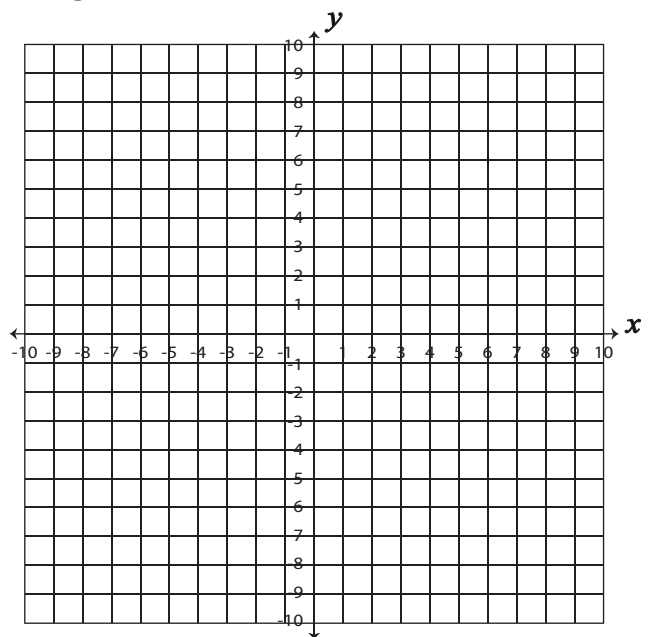

x- and y- intercepts:

$$x - \frac{y}{4} = 2$$

x- and y- intercepts:

$$\frac{x}{2} + \frac{y}{3} = -3$$

x- and y- intercepts:
