

Identifying Ordered Pairs

Which point on the graph satisfies the condition $x < -2$ and $y < -2$?

Answer: _____

Which point on the graph satisfies the condition $x > 2$ and $y > 2$?

Answer: _____

Which point on the graph satisfies the condition $x > 1$ and $y < 1$?

Answer: _____

Which point on the graph satisfies the condition $x > 0$ and $y < -4$?

Answer: _____

Which point on the graph satisfies the condition $x < -6$ and $y > 3$?

Answer: _____
