

Identifying Ordered Pairs

Which point on the grid satisfies the condition $x < -3$ and $y > 1$?
 Answer: _____

Which point on the grid satisfies the condition $x > 1$ and $y < -4$?
 Answer: _____

Which point on the grid satisfies the condition $x > 0$ and $y > 0$?
 Answer: _____

Which point on the grid satisfies the condition $x < -1$ and $y < -2$?
 Answer: _____

Which point on the grid satisfies the condition $x > 4$ and $y > -7$?
 Answer: _____
