

## Perimeter of a Triangle

Find the missing side of the triangles from the given information.

The perimeter of an equilateral triangle is 27 ft. Find its side.

Side length = \_\_\_\_\_

The perimeter of a scalene triangle is 23 cm. Two of its sides are 6 cm and 9 cm. Find its third side.

Side length = \_\_\_\_\_

The perimeter of an isosceles triangle is 44 m. Each of its equal side measures 16 m. Find its base.

Side length = \_\_\_\_\_

Find the side of the equilateral triangle whose perimeter is 18 ft.

Side length = \_\_\_\_\_

Find the length of one of the equal side of an isosceles triangle whose perimeter and base are 21 m and 5 m.

Side length = \_\_\_\_\_
