

**Solve by Factoring**

Solve the quadratic equations using the method of factoring.

$x^2 + 4x + 3 = 0$	$x^2 + 2x - 8 = 0$
$x^2 - x - 6 = 0$	$x^2 - 7x + 12 = 0$
$x^2 - 6x + 5 = 0$	$x^2 + 3x - 10 = 0$
