Sum and Product of the Roots

</div>

Find the sum and product of the roots of the given quadratic equations.

$x^2 - 5x + 6 = 0$ Sum of the roots: Product of the roots:	$3x^2 + 5 = 0$ Sum of the roots: Product of the roots:
$5x^2 - 2x - 1 = 0$ Sum of the roots: Product of the roots:	$2x^2 + 7x + 3 = 0$ Sum of the roots: Product of the roots:
$x^2 + 3x = 0$ Sum of the roots: Product of the roots:	$8x^2 + 3x - 5 = 0$ Sum of the roots: Product of the roots:
$x^2 - x - 2 = 0$ Sum of the roots: Product of the roots:	$4x^2 - 5x - 1 = 0$ Sum of the roots: Product of the roots:
