

## Square Root

Find the value of each of the following using a calculator. Round your answer to the nearest hundredth.

$2\sqrt{2} = \square$

$4\sqrt{2} = \square$

$5\sqrt{3} = \square$

$2\sqrt{3} = \square$

$3\sqrt{2} = \square$

$4\sqrt{3} = \square$

$5\sqrt{8} = \square$

$4\sqrt{8} = \square$

$2\sqrt{6} = \square$

$4\sqrt{7} = \square$

$5\sqrt{6} = \square$

$3\sqrt{5} = \square$

$3\sqrt{6} = \square$

$5\sqrt{10} = \square$

$4\sqrt{5} = \square$
