

Square Root

Find the value of each of the following using a calculator. Round your answer to the nearest hundredth.

$9\sqrt{19} = \square$

$7\sqrt{17} = \square$

$8\sqrt{20} = \square$

$13\sqrt{11} = \square$

$14\sqrt{22} = \square$

$11\sqrt{13} = \square$

$5\sqrt{23} = \square$

$3\sqrt{19} = \square$

$4\sqrt{15} = \square$

$15\sqrt{12} = \square$

$12\sqrt{18} = \square$

$16\sqrt{14} = \square$

$10\sqrt{10} = \square$

$10\sqrt{24} = \square$

$6\sqrt{21} = \square$
