

Surface Area of Cylinder

WS #1

Calculate the surface area and approximate your answer to the nearest hundredth.

Radius = 4 cm; height = 3 cm Surface Area = _____	Radius = 2.5 feet; height = 4 feet Surface Area = _____
Diameter = 6 yards; height = 8 yards Surface Area = _____	Diameter = 3.2 cm; height = 2.5 cm Surface Area = _____
Radius = 16 mm; height = 20 mm Surface Area = _____	Diameter = 7 inches; height = 8.2 inches Surface Area = _____
Diameter = 21 cm; height = 32.5 cm Surface Area = _____	Radius = 9.3 inches; height = 5.7 inches Surface Area = _____
