

Surface Area of Cylinder

WS #2

Calculate the surface area in terms of π .

Radius = 3 cm; height = 4 cm Surface Area = _____	Radius = 4 feet; height = 6 feet Surface Area = _____
Diameter = 5 yards; height = 2 yards Surface Area = _____	Diameter = 2.4 cm; height = 5 cm Surface Area = _____
Radius = 6.4 m; height = 4.2 m Surface Area = _____	Diameter = 12 inches; height = 6 inches Surface Area = _____
Diameter = 4.8 cm; height = 3.6 cm Surface Area = _____	Radius = 12.4 mm; height = 10.5 mm Surface Area = _____
