

## Converting Seconds to Minutes

Example :

$$130 \text{ seconds} = \underline{\quad} \text{ minutes } \underline{\quad} \text{ seconds}$$

$$\mathbf{60 \text{ seconds} = 1 \text{ minute}}$$

$$130 \text{ seconds} = \frac{130 \text{ seconds}}{60 \text{ seconds}}$$

$$= \mathbf{2 \text{ minutes } 10 \text{ seconds}}$$

$$\begin{array}{r} \mathbf{2 - \text{ minutes}} \\ 60 \overline{) 130} \\ \underline{120} \\ \mathbf{10 - \text{ seconds}} \end{array}$$

Convert the following to minutes and seconds.

1) 435 seconds =        minutes        seconds

2) 809 seconds =        minutes        seconds

3) 260 seconds =        minutes        seconds

4) 612 seconds =        minutes        seconds

5) 726 seconds =        minutes        seconds

6) 365 seconds =        minutes        seconds

7) 136 seconds =        minutes        seconds

8) 150 seconds =        minutes        seconds

9) 710 seconds =        minutes        seconds

10) 546 seconds =        minutes        seconds

11) 875 seconds =        minutes        seconds

12) 910 seconds =        minutes        seconds

13) 230 seconds =        minutes        seconds

14) 455 seconds =        minutes        seconds

15) 490 seconds =        minutes        seconds

16) 310 seconds =        minutes        seconds
