

## Converting Seconds to Minutes

Example :

$$130 \text{ seconds} = \underline{\quad} \text{ minutes } \underline{\quad} \text{ seconds}$$

$$\mathbf{60 \text{ seconds} = 1 \text{ minute}}$$

$$130 \text{ seconds} = \frac{130 \text{ seconds}}{60 \text{ seconds}}$$

$$= \mathbf{2 \text{ minutes } 10 \text{ seconds}}$$

$$\begin{array}{r}
 \mathbf{2 - \text{ minutes}} \\
 \hline
 60 \overline{) 130} \\
 \underline{120} \\
 \mathbf{10 - \text{ seconds}}
 \end{array}$$

Convert the following to minutes and seconds.

1) 343 seconds =        minutes        seconds      2) 450 seconds =        minutes        seconds

3) 615 seconds =        minutes        seconds      4) 917 seconds =        minutes        seconds

5) 775 seconds =        minutes        seconds      6) 530 seconds =        minutes        seconds

7) 397 seconds =        minutes        seconds      8) 260 seconds =        minutes        seconds

9) 562 seconds =        minutes        seconds      10) 790 seconds =        minutes        seconds

11) 870 seconds =        minutes        seconds      12) 690 seconds =        minutes        seconds

13) 612 seconds =        minutes        seconds      14) 312 seconds =        minutes        seconds

15) 135 seconds =        minutes        seconds      16) 200 seconds =        minutes        seconds
